

OZPACS: Recent impacts on Australian ecosystems Reference List

Users please note: Although we endeavoured to make this list as complete and up to date as possible, some references are incomplete in cases where the full information was not available using a range of search methods. Hopefully sufficient information is provided should you wish to undertake a more thorough search for a particular reference.
K. Fitzsimmons, 31/8/2007

Adamson, K., Tibby, J., Kershaw, A.P., in prep. Long term water quality and vegetation patterns at Junction Park Billabong, Murray River, Australia, with special emphasis on European impact. *Austral Ecology*.
